Unique Drone/check (Exit number)

A 3 digit queen (Q) number assign to an issuer/bank or lender by Iei network, bundled with the exit or Drone (D)/check number. Using a unique or standalone system, only the Drone number would be entered.

Figure: 115 Shows a double illustrated diagram for entering Drone/exit or bundled number. The left side payment gateway is for IEI Drone (card/check) number and or other account(s) issue as an independent or by a single issuer. While the right side shows a bundled number when issued by multiple issuers, with a double processing system to/for blocking the merchant and end user from seeing the end user account number during, a transaction.

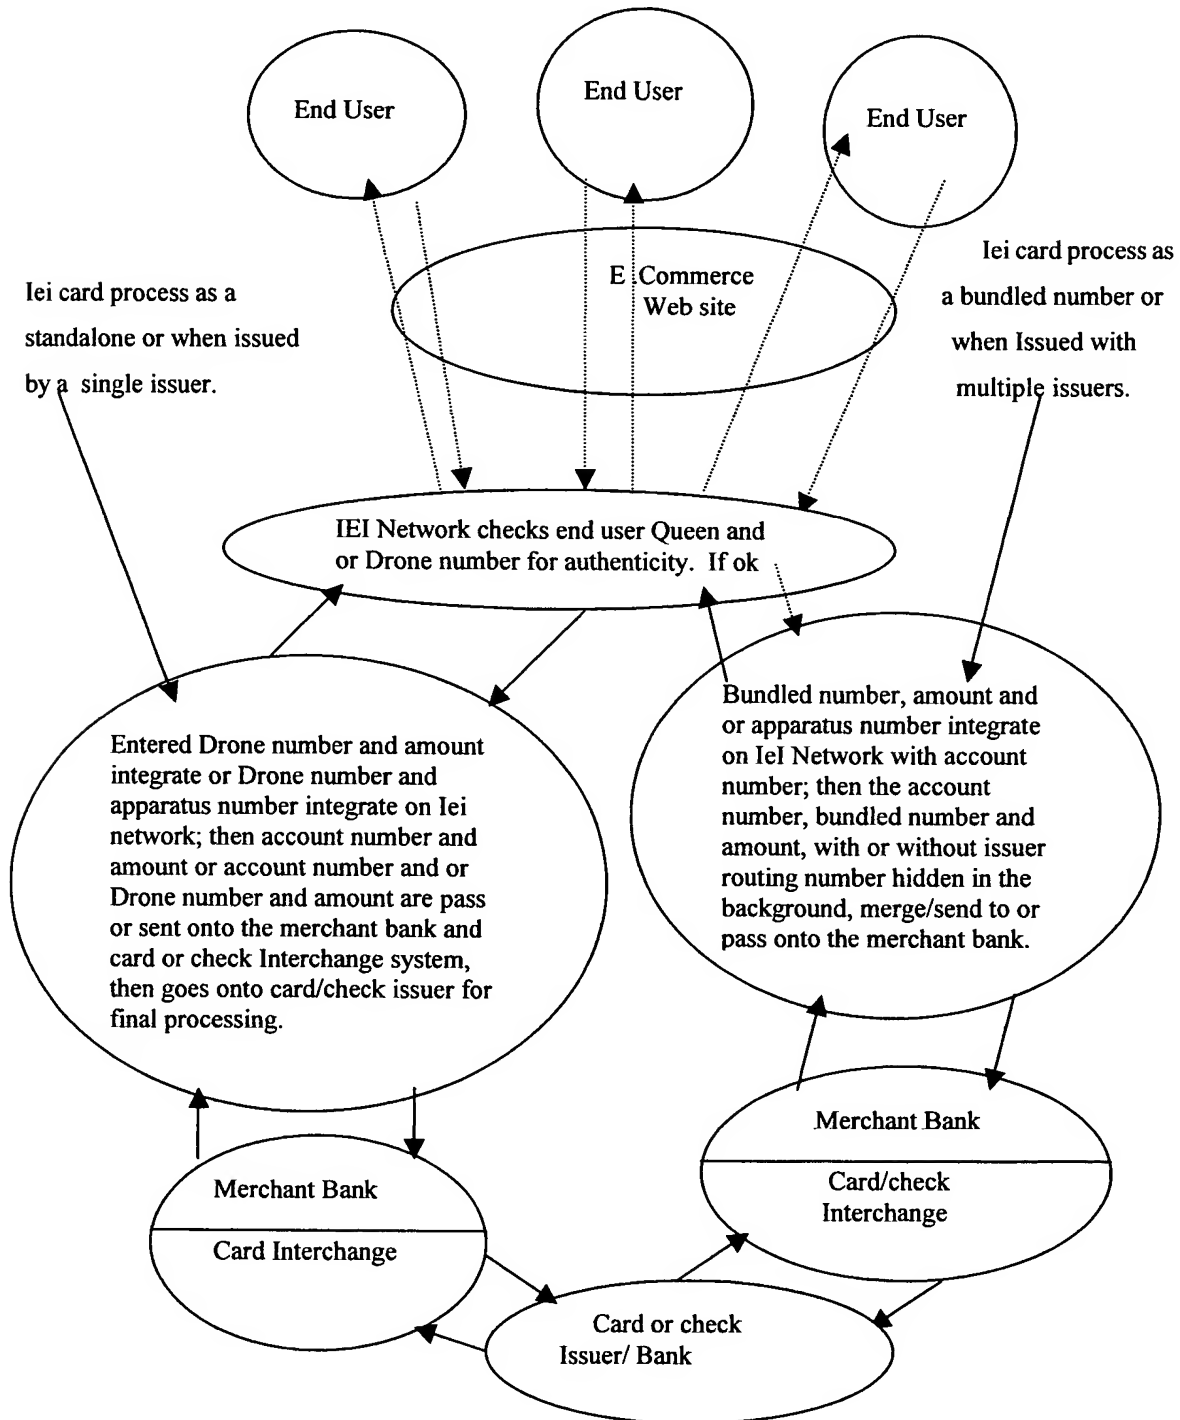

Figure: 116 Shows a simple DFT apparatus issued by a single issuer, with date, time, Drone/exit number and payee name and or license number waiting to be send onto the payment gateway for process.

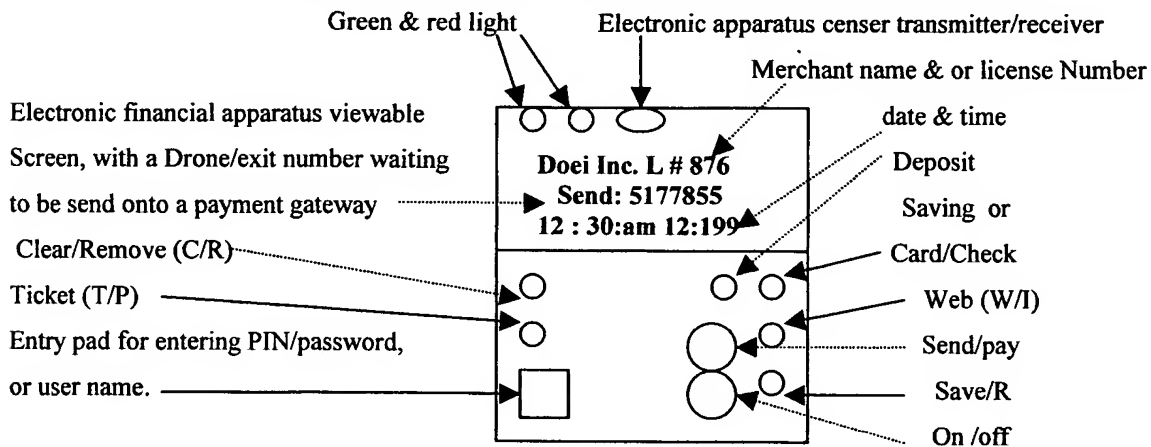

Figure: 117 Shows a portable financial multipurpose electronic apparatus outside mechanism remote make up, imbedded/implanted in various design and shape of every day consumer goods (e.g. cell phone, key shape, and other gadgets ect.) with time, date and a bundled lei card/check number waiting for pay/sent button to be press/touch.

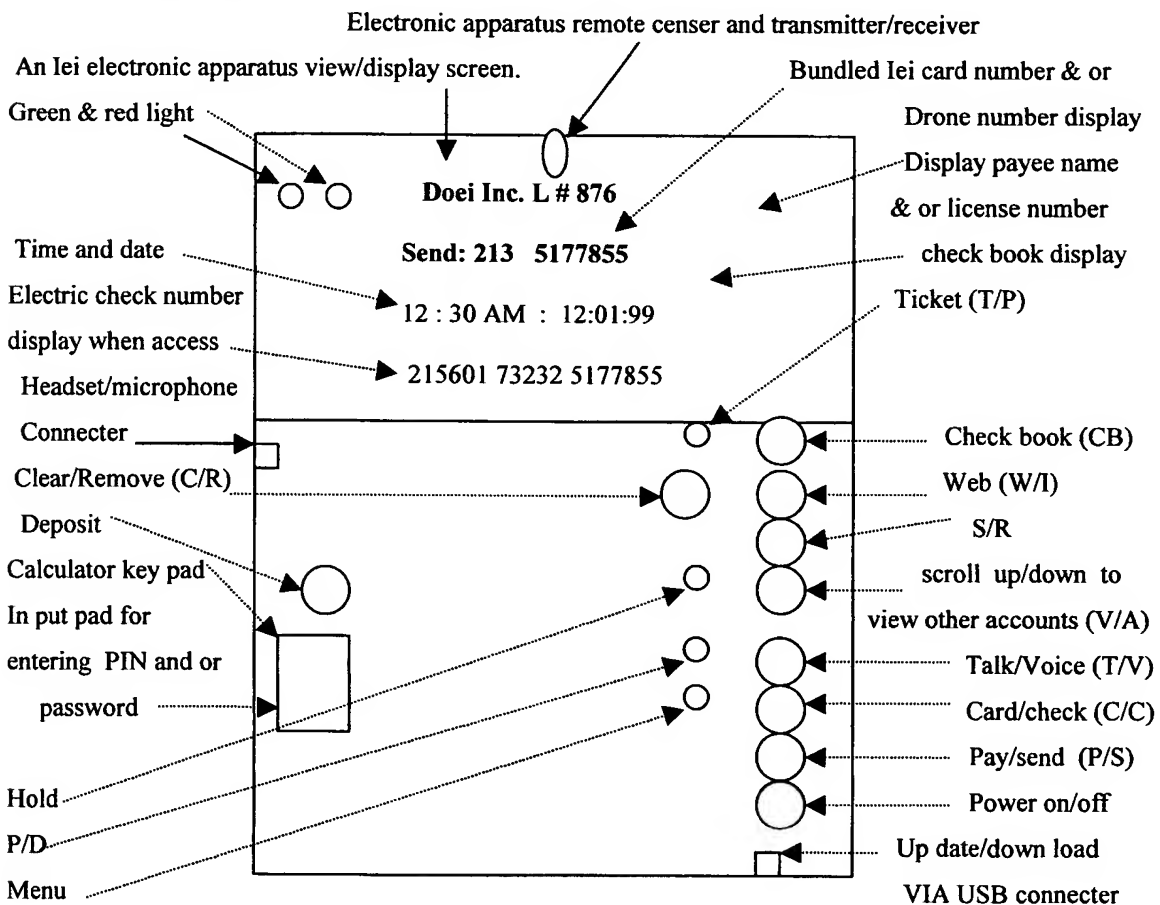

Figure: 118 Shows a diagram with an Iei secondary number (Drone/exit, card/check number), routing, apparatus and account number on an Iei and or other payment gateway, when issued by a single issuer and the send/pay button is touch/press on the apparatus. The Drone/check number and amount; integrate on Iei network (payment gateway), then merge with the end user apparatus number and or issuer routing number in the background, which is unseen/unnoticed by the merchant and end user or hidden in the background. Then goes onto the merchant bank for processing. The numbers stimulated/popup from the database when a secondary number is entered correctly and is not yet used and or process and approved as an option.

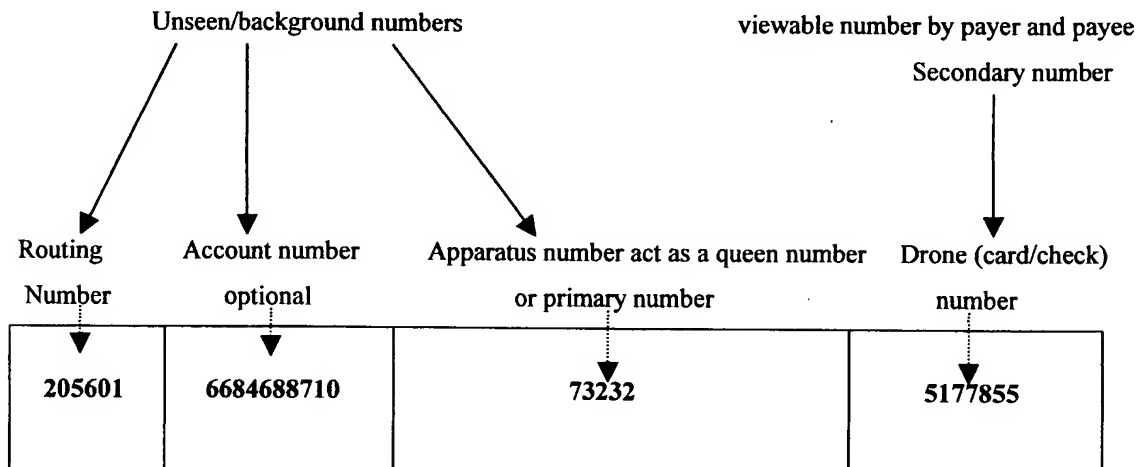

Figure: 119 Shows a diagram illustrating an Iei payment gateway using bundled numbers with multiple issuers. Bundled number with amount and or issuer routing number, apparatus number, bundled number and amount integrate on electronic financial apparatus, electric checkbook (check)/card and or Iei Network, with the account number optional. Apparatus number and issuer routing number hidden in the background, then merge and or send/pass onto the merchant bank for final processing, when the send/pay button is touch/press.
